

Cybersecurity.

Internship 4–6 mo.

Education

Bachelor's — Cybersecurity (09.2026 – ongoing)

Epitech · Direct entry, 2nd year

BTS SIO, Software Dev. track (09.2024 – 06.2026)

CNED · distance learning while working · exam not passed in 2026, resit scheduled 2027

Vocational cert. — Building Painter (09.2023 – 06.2024)

Éco campus du bâtiment, Vitry-sur-Seine · With honours

Workplace First-Aider Certification (2023 – 2024)

Training in working at height and scaffolding

Technology Baccalaureate, Marketing (2022)

Lycée Le Rebours, Paris 13th · Obtained

Experience

Independent Developer (ongoing)

Registered micro-business · invoiced development work

Building Painter

Bechet (09.2023 – 08.2024), then SASU Voltaire, Paris (06.2025 – 09.2025)

- Worked on team-run sites under strict collective safety rules — a discipline I now apply to information security.

Food Service & Retail

Les Carnivores, Paris (01.2023 – 07.2023) · Bastille & St-Quentin markets, Paris (01.2021 – 12.2022)

Projects

Mon Mental (ongoing)

Native iOS app connecting psychologists and patients via audio/video calls. Swift, real-time streaming.

Zéro Trace (in development)

Awareness game about digital anonymity and the traces we leave online. Next.js.

Trouvaille (ongoing)

Matchmaking app & website — Node.js REST API, React front-end.

Timothée

**COLLET
BERTHELOT**

Profile

Developer in year 2 of a Bachelor's at Epitech, specializing in **cybersecurity**. I design and ship complete applications — **native iOS** and full-stack web — and administer Windows, Linux and virtualized environments. My first trade, building painting, taught me safety as a collective discipline before I approached it as a technical one. I'm looking for a 4-to-6-month cybersecurity internship, ahead of a master's in AI focused on model security.
